

Tracking 3rd party litigation

1. PACERPro enables users to track 3rd party cases
2. We do this by downloading new copies of the docket sheet from PACER, and then redlining the new copy against cached copies. To the extent there are new entries, we send designated users an email notification specifying the change. Standard PACER fees apply
3. To set up a track
 1. Find the case
 2. Follow the case
 3. Set an update schedule. *If you do not set an update schedule, you will not be guaranteed any updates*
 4. As needed, use the distribution list feature to send the alert to other people
